

Films must be directly uploaded while your registration process.

As last year, we will ask you to directly upload your film online through your registration process. You could directly upload your film once your Short Film Corner registration will be done.

Please find below the technical specifications we will need:

Please note:

- We only accept multiplexed files. That means audio and video in one file.
- There is a maximum file size of 5 GB for each film.
- For subtitled films the subtitles have to be integrated (burned in) into the image.
- The bigger the resolution, the better: You can also upload movies up to HD 1920x1080; just remind the maximum file size of 5 Gbyte
- Java must be installed. Download: <http://www.java.com>

Video specifications:

We recommend: .mp(e)g file format with MPEG 2 video or H.264/MPEG-4 for best quality.

Video Formats :

mp[e]g / .avi / .vob / .mov / .mp4

Video Adjustments:

- Minimum resolution: 720 x 480 px (we accept NTSC, PAL and even SECAM files; HD is also possible)
- Bitrate (if possible) > 2MBit/s

Video Codecs

- uncompressed
- H.264/MPEG-4 AVC
- MJPEG
- MPEG-1
- MPEG-2
- QuickTime Graphics

Audio specifications:

Audio Adjustments

- 48kHz sound
- Bitrate (if possible) > 128 kBit/s

Audio Codecs

- uncompressed
- AAC
- AC-3
- Apple Lossless
- FLAC
- MP2

We recommend: uncompressed
