

## The Festival of Animated Film on tour!

Since 2006, the Stuttgart Festival of Animated Film has been organizing a yearly tour programme with a selection of some of the best animated films from the previous Festival. The programme is presented worldwide and comprises: Best of International Competition, the BW reel with the best animations made in the German region of Baden-Württemberg and Best of Tricks for Kids (with separate leaflet).

## Stuttgart International Festival of Animated Film (ITFS)

Founded in 1982, the Stuttgart International Festival of Animated Film has developed into one of the most important and biggest events for animated film around the world. The Festival takes into its scope the whole spectrum of current productions in the animated film sector, including the intersections between games, architecture, art and design. On six days and nights, more than 1,000 international animated short and length films can be seen. The film programmes are accompanied by workshops, cult nights, parties and special programmes for children and youths (e. g. in the Mercedes-Benz Museum and in Jugendhaus Mitte). Numerous directors and producers attend the Festival to present their works and discuss with the audience. Great party atmosphere for free offer the Open Air screenings on Stuttgart's main square "Schlossplatz" where an entertaining programme for animation fans of all ages is presented already in the afternoon. In the GameZone visitors are invited to play in tents and on the big LED screen. Another Festival highlight is the presentation of the German voice actor award in the Renitenztheater where German comedians and actors perform during a spectacular gala event.

### BEST OF INTERNATIONAL COMPETITION ...
