Short synopsis in English

An animated feature film following the dramatic journey of two siblings, Kyona and her brother Adriel, who are running away, because they are being pursued by an unspecified country. During their initiatory trip from childhood to teenage, they have to cross an entire continent and to go through many trials, both real and surreal, in order to discover a New World, free at last! A story about the neverending effort to find a new home, where we can find a better life. An effort for which we are willing to risk our lives. On this journey of hope people overcome various perils and experience the most terrible of situations. They are fueled by the awareness of who they really are, what they are running from and what they are hopeful of. In the end an experience like that becomes a story worth telling again and again.
